## NOTICE TO MARINERS

ENTERING

## FRASER RIVER

ALL previous notices issued by the Harbour Master of British Columbia, having reference to the Sand Heads of Fraser River, are hereby rescinded.

The following directions are published for general information:  
The Beacons carried away since last fall have been re-constructed, excepting the South Sand Head No. 1, and the following alterations and additions made. The Light Ship now building will be placed near to the South Sand Head, being substituted for No. 1 Beacon.  
The Beacons are formed with clusters of piles, each Beacon having a distinguishing feature at the top of the piles, and being numbered consecutively from 1 to 10, irrespective of the Crib on the North Sand Head.  
No. 2. BEACON, NORTH SAND HEAD.—Placed in 1 foot at low water, 1/2 a cable from the buoy in a N. W. direction, showing from a Southerly bearing a black diamond elevated on a pole 16 feet above the top of the piles.

No. 3. BEACON, NORTH SAND.—In 6 feet at low water, at high water spring tides it is awash, but at low water it looks like the hull of a small vessel. A pole 20 feet long with a black board at the top pointing to the Channel is secured to it. A permanent Sea Mark will be built upon it in the course of a few months, of which due notice shall be given.

No. 4. BEACON, NORTH SAND.—1 cable distant in a S. W. direction from black top buoy, is distinguished by a black triangle elevated on a white pole 16 feet above the piles, and placed in 2 feet at low water. The piles are white-washed.

No. 5. BEACON, NORTH SAND.—On the spit 1 1/2 cable from red top buoy (placed in 5 feet at low water). This beacon is remarkable from its leaning position and is readily distinguished by the red casing on a white pole above the piles, the top of which is also white.

No. 6. BEACON, NORTH SAND.—1 cable distant from white buoy in a Westerly direction, is placed in 7 feet at low water. On the top of the pole is a white triangle, the apex of which is on the lower part of the pole. This beacon forms a conspicuous object and must be appreciated, as it will guide Vessels in the Channel when entering and leaving the River. The beacon is all white.

No. 7. BEACON, SOUTH SAND.—Is a black beacon placed in 6 feet at low water, having a St. Andrew's cross elevated on a pole 16 feet above the piles.

No. 8. BEACON, SOUTH SAND.—A cable's length from No. 7, in 1 foot at low water. This Beacon is white, having a St. Andrew's cross on a pole as above described in No. 7. As these Beacons, No. 7 and 8, are intended as marks for crossing the Bar, they are referred to as the X Beacons. This Beacon (No. 8) is not to be regarded in any way except to lead Vessels over the Bar in the deepest water. For Vessels of large draught the X Beacons will be found invaluable, as by taking care to "port" sufficiently soon, after passing the black top buoy, as to cross when in a line, they will lead over the Bar, carrying from 19 to 22 feet at high water Spring Tides. In all other parts of the Channel much deeper water will be found. After the red top Beacon is brought in a line with the white Beacon (No. 6), the red top buoy may be with safety rounded, then steer in direction for the white buoy, and from thence to the Ball Beacon on Garry Point.

No. 9. BEACON, SOUTH SAND.—On the edge of the bank, placed in 1 foot at low water, is nearest to the Mouth of the River, and distinguished by a black pole having at the top two black boards on two sides of the pole horizontal with each other. The tops of the piles are also black.

No. 10. BEACON.—Is a land mark placed on Garry Point to indicate the Mouth of the River, which shows from every direction a large White Ball. The braces, 6 feet of the pole, and the tops of the piles are black. The lower part of the Beacon is white-washed.

All buoys on the North Sand, after entering the Channel with Vessels of large draught, should be passed close on the "port" hand. Caution is hereby given that the Beacons constructed on the Sand Heads are not intended as marks for the Navigable waters of the Channel, but to indicate the locality of the several buoys.

The old white buoy has been removed and a red spar buoy placed on the spit of the middle Sand inside Garry Point, in 12 feet at low water, which must be past by Vessels entering the River on the starboard hand.

By following the above directions Mariner will find the Channel well and clearly defined, and with ordinary care a perfect stranger may navigate his Vessel with safety into Fraser River.

JAMES COOPER,  
Harbour Master

## THE INVALID'S FRIEND.

## HOLLOWAY'S PILLS.

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of sweets. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

## Mothers and Daughters.

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

## Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they are afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

## The Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasms—in fact they never fail in curing all disorders of liver & stomach.

## Bronchitis, Diptheria, Coughs, Colds.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any over-gorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

## Debilitated Constitutions.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

## Billiousness, Loss of Appetite, Head-ache and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague, Female Irregularities, Retention of Urine, Scrofula, or King's Evil, Sore Throat, Stone and Gravel, Secondary Symptoms, Tic Douloureux, Tumours, Ulcers, Venereal Affections, Worms of all kinds, Weakness, from whatever cause, &c., &c.

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 12d., 2s. 6d., 4s. 6d., 1s., 2s., and 3s. each Box.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box. de7

For Sale—Frederick Kaye & Co.

The British Columbian.  
NEW WESTMINSTER, TUESDAY, AUG. 29, 1865.

EUROPE.

Our news from England is important enough, but, on the whole, not very interesting. The Parliament would expire by limitation early in July and candidates seeking re-election are publishing addresses to their constituents throughout the length and breadth of the land. The Liberals are going to the polls with the old war cry of "Palmerston forever." At present neither party appears to be anxious for an extension of the franchise. Among the new candidates for parliamentary honors the name of John Stewart Mill is perhaps the best known. His election for Westminster is spoken of as certain. Mr. Berkeley, who annually brings forward a motion for election by ballot, acted his part again this year, and of course received his annual defeat. Owing to some unfortunate transactions in which the conduct of his eldest son has involved him, Lord Westbury, the Chancellor has been furiously attacked in the House of Commons, and his resignation is very probable. A most appalling railway accident has happened at Staplehurst, on the South-Eastern Railway. Charles Dickens was in the train, but providentially escaped without hurt. Many were killed and injured, and two servants of the company have been committed to stand their trial on a charge of manslaughter. The accident is attributed to the negligence of a plate layer and a superintendent. *Gladiator*, who won the Derby at Epsom, has been carrying all before him in France. Besides several minor races, he has won the *Grand Prix de St. Germain* or other, which is the French Derby. The French are in raptures over it. At the Regatta at Henly the Eight of the London Rowing Club won the Grand Challenge Cup, beating college crews from Oxford and Cambridge. The iron clad fleets of France and Britain are going to make a big show. The latter will sail on the French coast, and is to be reviewed at Brest by the Emperor, while the French fleet is to sail round the "tight little island," and will be inspected at Portsmouth by the Prince of Wales. Then the combined fleets are to go through a series of maneuvers for the benefit of the world in general and the United States in particular.

From Cariboo.

The steamers *Onward* and *Lilloet* arrived from Yale yesterday, bringing an express for Dietz & Nelson, with a Cariboo mail and files of the *Sentinel* of the 19th inst. Mr. E. B. Holt, of this city, who is a shareholder in the famous Ericsson Claim, came down yesterday. Mr. Holt brought us a sample of wheat taken from Mr. Waldron's farm at Soda Creek, which for quality could scarcely be excelled in any country. He informs us that the crops along the wayside look remarkably well. The news from the diggings is quite unimportant. Everything on Williams Creek appears to be dull and flat. The markets have undergone little change, although flour is held firmer at a slight advance upon last quotations. The *Sentinel* contains a very sensible leader, protesting against the Cornwall Hat Valley monopoly. The *Sentinel* would do well to grapple with real evils and abuses instead of endeavoring to conjure up imaginary ones to serve political purposes. The amount of gold shipped from Cariboo for the past month is set down at \$277,000, "being," says the *Sentinel*, "an immense increase over the corresponding month of 1864." The same paper, in alluding to the late visit of the Colonial Secretary says:—"We must say that Mr. Birch has made a favorable impression during his stay by his frank and conciliatory disposition." George Weaver had returned from a prospecting tour in the Horse-fly country. He does not report the discovery of any rich diggings. He extended his explorations to within 40 miles of the Big Bend, and thinks that if a road were made through from Cariboo, the Big Bend could be reached in five days. The Horse-fly country is described as well adapted for pastoral purposes, with abundance of luxuriant grass. Mr. Weaver neither saw nor heard anything of Mr. Orr's party, but presumes they will have proceeded up the North Fork of the Thompson, and will probably cross to Tete Jaune Cache, returning to Cariboo in the fall. A Canadian named David French had a narrow escape from the breaking of the rope as he was descending the shaft of the "Cariboo" Claim. Thompson sustained serious injury from a bucket falling upon his head while working in the shaft of the "Surprise" Claim. Drs. Brown and Chipp had pronounced him out of danger.

His Excellency's DEPARTURE.—It is understood in well-informed circles that His Excellency Governor Seymour will not leave for England for 10 days or a fortnight yet.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

This Journal is the oldest newspaper published in British Columbia. It is read by every business man from New Westminster to the Rocky Mountains, and is a valuable medium for the dissemination of news and information. It is published by the British Columbia Press, Limited, in Victoria, and is sold by all the principal news-vendors in the colony.

NEGRO TROUBLES IN VIRGINIA.

RAVAGES OF THE CHOLERA.

NEW YORK, Aug. 10.—The Commercial says, Mrs. Douglas's appeal to the President for the pardon of H. V. Johnson, who was on the ticket with her husband for the Vice-Presidency, has proved successful.

WASHINGTON, Aug. 10.—Moseby was arrested last night in Alexandria, and is still held in custody.

FINANCIAL CRISIS!

NEW YORK, Aug. 15.—Great excitement prevails in financial circles to-day. A number of failures are reported, among them that of Graham & Co., and Ketchum & Son. The latter firm have over-issued gold checks to the amount of two million dollars, and left for parts unknown.

NEW YORK, Aug. 14.—The Herald's Richmond correspondent says, "Six weeks, or more, ago, General Lee left this city and proceeded to the village of Cartersville, Buckingham County, on the south of James River, (40 miles from Richmond) where he is living in seclusion, scarcely answering the myriads of letters addressed to him. He resides in a small cottage, the property of Mrs. Cox; adjacent, and belonging to which, are some four acres of land, which he finds some recreation in cultivating. Gen. Lee is unusually retired. It is possible he will rarely, if ever, emerge from his seclusion."

NEW YORK, Aug. 14.—The Herald's special dispatch says, "Grave difficulties are arising between the citizens of Mecklenburg County, Virginia, and the freedmen, heretofore living as slaves."

NEW YORK, Aug. 8.—The Herald's Richmond correspondent says, "Evil spirits have been let loose upon the United States since the unceremonious and justly deserved fate of the late election was pronounced, joining men and citizens together to waylay and assault every colored man they meet; while older heads universally adopt the plan of fighting our soldiers and at the same time hissing out their bitterest denunciations on the negro. The most stringent orders of Gen. Terry are inadequate to meet the growing abuse."

NEW YORK, Aug. 10.—The Post's Washington special correspondent says, "Advices received by State Department to-day from the American Consul at Malta, states that the cholera was raging there to a fearful extent. Communication with the neighboring islands is suspended."

NEW YORK, Aug. 14.—Provisional Governor W. Marvin, of Florida, issued a proclamation to the people of that State, August 3rd, informing them of the necessary steps to be taken to restore the civil government, and the days for election of delegates to the convention. The time for its assembly has not been decided upon. That will be named as soon as the proper time shall have been given for the people to take the oath of allegiance.

SAN FRANCISCO, AUG. 25.—An additional section of the San Francisco & Alameda R.R. Extension, from San Leandro to Hayward, a distance of six miles, was formally thrown open yesterday.

John Duffy has commenced suit against cutter McAllister to recover \$203 damages, on alleged malicious prosecution growing out of a complaint by McAllister, charging Duffy with malicious mischief.

The case of the U.S. vs. 300 cases champagne of the Widow Cluquet brand, is on trial in the United District Court. It is claimed by R. Feuerstein & Co.

The suit of M. J. Hardy & C. P. German vs. Patrick Mullary, is on trial. The suit is brought to recover \$10,000 damages from the defendant, who is a cooper by trade, for illegally counterfeiting the cutter whisky trade mark on whiskey barrels which he manufactured and sold.

The steamer Del Norte, from Crescent City this p.m., brings the remains of James Nesbit, Jas. Richards, G. W. Pollock and Daniel Parris, recovered from the wreck of the Brother Jonathan.

A private letter from Kanagawa, by the last mail, states a valuable concession had been obtained from the Japanese Government in relation to the projected California & China Mail half of the projected California & China Mail Steamship Co., via Jeddo, in the shape of a coal depot comprising over half an acre on a canal at tide water. This looks like progress, and as the contract for carrying the mail was to have been awarded at Washington on the 15th inst. the result is anxiously awaited here.

SECOND DISPATCH.

SALT LAKE, 26th August.—Eastern line again working. Shall have no news report to-day, the line being occupied by private business.

SAN FRANCISCO, August 26.—We hear extraordinary reports concerning the doings of the Independent Union Convention, which was called for the purpose of nominating independent candidates of undoubted unionism to be supported by the union party of the State. It is suggested that a majority of the Convention are upon the point of making a bargain with the opposition. They are to have six legislative candidates, giving Felton the balance, thus consolidating the tickets. It is further stated on good authority that the majority of the Convention is in the hands of aspirants for the U. S. Senate entirely, and that the interests of the people are being traded away precisely as was done by a party of other senatorial aspirants three years ago.—The funeral of the late Jas. Nesbit, of the Bulletin, will take place to-morrow. The services will be held in Calvary Church, Bush-street, at 12 o'clock. The remains will be interred at Lone Mountain Cemetery, in a lot adjoining the grave of James King of William, the founder and fosterer of the Bulletin.—Gen. Halleck and staff are at the Occidental Hotel, and have been visited by Gen. McDowell and staff. Gen. Halleck's staff is composed of the following gentlemen: Brig.-Gen. Chas. A. Whittier, Lieut.-Col. R. N. Scott, son of Rev. Dr. Scott, Lieut.-Col. D. C. Wager, Major John McLean Taylor.

Augustus Rinbock and wife sue the Central American Transit Co. to recover \$4,190, alleged to have been lost with their baggage on steamer Golden Rule.—Patrick Dolan, a painter, while at work on the building of the Pacific Board of Brokers this morning, was precipitated to the pavement, breaking his neck.

Advices from New York by the Golden City bring information of the death of Mrs. W. C. Forbes, an actress well known in California.

Capt. John L. Smith, of the schooner Hudson, was drowned in the Straits of Carqueinez on Wednesday evening last, by the upsetting of a small boat.

A passenger by the Del Norte, on her last trip from Crescent City, furnishes the following list: Additional bodies recovered at Cold Bluff by Solomon Hall, just before the steamer sailed: A woman about 20 years old, 5 ft. 2 in., hair brown, ring on right hand marked on inside, G. S. A man 26 years old, 5 ft. 6 in., light hair, grey shirt and dark ribbed pants. We are informed by Capt. Johnson, of the Del Norte, that the body of Mrs. Gen. Wright came ashore at Trinidad on Wednesday last, being identified through her under-clothing, which was marked with her name in full.

Advices received by the Golden City give some idea of the causes which led to the failure of Ketchum and Son, Graham & Co., and others, on the 17th inst. in New York. It appears from what has been published that the Secretary of the Treasury has endeavored recently to put an end to speculations in gold, which have proved so injurious to the finances of the country for some time past. With this view it is now stated that whenever gold advances above a certain price the Secretary of the Treasury, through his agents, enters the market and sells, thus frustrating the designs of brokers and others who have for so long a period advanced or depressed the value of currency to suit their own interests.

From the nearly uniform quotations of gold for a month or six weeks prior to the 15th, the date of failure above referred to, it would appear as if the Secretary of the Treasury had furnished gold during that length of time to hold Government paper steady in the New York market.

MARKETS.

Legal tenders 73 1/2 to 74 1/2.  
Butter, firm. Sales, 500 to 600 firkins ex Golden City, private; quotable 35c. to 34c. for Western, 34c. to 35c. for States. The Golden City brought 5230 firkins, and the next steamer will have a little over 3300 firkins.

Candles, 1000 boxes Knapp's and 2500 Kelly's at 18c.  
Coffee, sales 24 1/2.  
Sugar, in demand at full price.  
Tea, basket, 85c., now held at 90c.  
Flour, fair demand, unchanged.  
Wheat, firm, \$1.70 to \$1.72 1/2.  
Barley, firm. Sales large, at \$1.02 1/2.  
Oats—still in favor of buyers, \$1.45 to \$1.55.

THE DETROIT CONVENTION.—This important gathering, representing the commercial interests of the United States of America and the British Provinces, was in session at Detroit at latest accounts. The Convention had organized and several speeches had been made. Amongst others the Hon. Malcolm Cameron had made a speech which the Toronto Globe alludes to in the following terms:—"Hon. Malcolm Cameron was next heard. His speech was a splendid success. He complimented and joked the Americans until he got them in a thoroughly good humor, making even the Chicago men roar with laughter. Scores of times did the loud laugh make the hall ring. Having got his audience in the right temper, he heaped upon them, in the same handsome style, the most telling arguments in favor of the largest possible degree of free trade between the two countries. Mr. Cameron was highly complimented by the British Americans on his success and Americans pronounced it 'a staving speech.'"

THE HON. COLONIAL SECRETARY has, we understand, gone round by Kamloops and Princeton, so that his return may not be reasonably expected before Friday.

The Public Meeting.

In pursuance of a notice by the President of the Municipal Council, a public meeting was held on Saturday evening at the Hyack Hall for the purpose of preparing an address to be presented to His Excellency Governor Seymour, on the occasion of his departure for Great Britain.

Mr. John Robson was Chairman, and Mr. T. McMicking, Secretary.

Moved by Mr. Cormack, seconded by Mr. Tilley, and Resolved, That the public having been given to understand that His Excellency Governor Seymour is about to leave the colony on a visit to Great Britain at an early day not yet fixed; be it Resolved, That this meeting appoint a Committee to wait upon His Excellency to request the favor that His Excellency will, at such time as he may think best, inform the Committee of the day that may be appointed for his departure, in order that the public may address him upon the occasion, and secondly, that the Committee in the meantime prepare the address and submit it to an adjourned meeting before it be presented.—Carried unanimously.

Moved by Mr. Murray, seconded by Mr. Cormack, and Resolved, That the Committee consist of five, viz., Messrs. W. J. Armstrong, John Robson, J. T. Scott, Wm. Clarkson, and W. E. Cormack.—Carried.

Moved by Mr. Ferris, seconded by Mr. McMicking, and Resolved, That this meeting do now adjourn, until Tuesday evening next at 8 o'clock for the purpose of hearing and considering the address to be prepared by the Committee.—Carried.

THE BEAR RIVER MINERS AND GOVERNOR KENNEDY.—The precipitate return of the Bear River diggers (?) and their bearish attack upon His Excellency Governor Kennedy are circumstances unhappily but too characteristic of the impulsive and unreasoning Victoria populace. The wholesale condemnation of Butler and others without a hearing, or, indeed, without any degree of certainty as to the particular locality where it is alleged that diggings were struck, is hardly what one would look for from men claiming to be British, while the act of madly rushing to Bear River, and then as madly rushing back again, without so much as breaking ground, would not appear to indicate very high qualities as prospectors, and the demand made upon the Government for pecuniary compensation for loss of time and money bespeaks an absolute absence of common sense. But if this much be true of those who are called the Bear River miners, what shall we say of the intemperate and unjust leader in the Colonist of the 23rd inst? We can afford, however, to leave our contemporary in the hands of Governor Kennedy, who administered such a scathing rebuke, reading from that paper of the 15th when the appointment of Butler was highly commended, and then from the article to which we have alluded, severely censuring the Governor for the whole thing. If the treatment Governor Kennedy appears to have met with from a portion of the press and people of Victoria with respect to this affair is to be taken as a specimen, we heartily commiserate His Excellency. The untoward result of the Bear River excitement is matter for sincere regret in both Colonies; but we must say that we cannot hold either the people or the press of Victoria altogether free from blame in the matter. It is due to the Daily Post to say that it contains a temperate and sensible article upon the subject, wherein the Governor is ably defended against the coarse attack of a morning contemporary.

DEPRAVED LITERARY TASTE.—De Quincy was the first man who treated of "murder as one of the fine arts," but the proprietor of Leslie's illustrated paper has outdone this. A paper never at the best of times remarkable for elegance of expression or beauty of illustration, in its last issue teems with that which can only disgust any reader of ordinary susceptibility. The execution of criminals is not a pleasant subject to talk about much less to see; but when a whole newspaper, or nearly so, is devoted to the illustration of the deaths of the miserable wretches who were accessory to the murder of Abraham, what must our feelings be? Either surprise at the morbid public taste which supports such publications, or else unmitigated wonder at the hardihood of the Editor in publishing such things in the teeth of popular opinion.

CIVIC COMPLIMENT.—The President and the ex-President of the Municipal Council had the honor to dine at Government House on Saturday evening. The Honorables W. Hamly, J. A. R. Homer, H. Holbrook, and Dr. Black, were of the party.

PUBLIC MEETING THIS EVENING.—It is desirable there should be a general attendance of the public at the adjourned meeting, at the Hyack Hall, this evening, for the purpose of receiving the report of the Committee on the address to His Excellency the Governor. The Chair will be taken at 8 o'clock.

THE UNITED STATES fiscal year closed on June 30th, when the Treasury had a surplus of \$35,000,000 in gold and silver. Its annual payments on account of gold-bearing bonds, amounted to about \$60,000,000.

TELEGRAPHIC COMMUNICATION WITH YALE.—The line was completed to Yale on Saturday, when the following telegram was transmitted to this city:—

YALE, B. C., August 26, 1865.  
To Messrs. Greiley, Colonial Hotel.  
Send a bottle of Champagne to Mr. Pitfield, with my compliments, and charge to me.  
W. H. SUTTON.

The line is now working to Deep Creek, and it is expected that it will be completed as far as Soda Creek this afternoon.

THE ALEXANDRIA-QUESNEL ROAD.—We understand that the contract time for the completion of this road has expired, and that an application for extension has been refused by the Chief Commissioner. We are not sufficiently acquainted with the merits of the case to venture an opinion.

A GRAND HOTEL has been erected at a cost of over \$1,500,000 in Portland Place, London, called the "Langham Hotel." The Prince of Wales is among the proprietors.

Cariboo Letter.  
To the Editor of the British Columbian.

SIR,—In the absence of any startling news on this creek, either mining or political, I may be excused for communicating a little scandal. A number of the miners entertained the Colonial Secretary at a dinner in Richmond last night, to which about 50 persons sat down, a number which will not appear surprisingly small when it is known that the price of tickets was placed at \$36.

I am unable to say with any degree of certainty why the affair was so exclusively dear; but I cannot help thinking that the compliment would not have been in any way depreciated had there been a general attendance of the miners, which would undoubtedly have been the case had the price of tickets been \$8 or \$10, instead of \$36, for it must be admitted that money is not now held so lightly as it once was on Williams Creek, and that the great bulk of the miners could but ill afford the luxury of a \$36 dinner, even to show their loyalty to the Government and their admiration of the Colonial Secretary, who, I must tell you, has made a rather favorable impression here.

Well, Chief Commissioner Trutch and Gold Commissioners Cox and Ball were guests. After many toasts had been received with much enthusiasm, particularly the health of our popular Gold Commissioner, at the mention of whose name the glasses were made to dance a rare Irish jig, Guss Wright, a well known toadying contractor, jumped up and proposed the health of Commissioner O'Reilly, with the idea probably that, as the said Commissioner was brother-in-law to Chief Commissioner Trutch, who was present, and whose favor it was his especial interest to cultivate, the act, altho' perhaps a little indiscreet, might be a nice stroke of policy. If such was his idea he was quickly undeceived, however. At the mention of that name every miner threw himself back in his seat, with folded arms, clenched teeth, knitted brows and angry, defiant mein, doggedly refusing to respond to the toast. Commissioner Trutch, with more zeal than discretion, sprang angrily to his feet and demanded to know what anyone there had to say against Mr. O'Reilly. Hard Carry, one of our well known pioneer miners, quickly responded to the challenge, after the following sort: "Trutch! you are on the steam traction engines. I, too, am on steam engines. (Alluding, it is presumed, to the steam engine in use in his claim.) If I were to state all I know against O'Reilly I should frighten you away."

At this quaint, blunt speech Mr. Trutch resumed his seat, evidently crestfallen.

It will hardly be necessary to state, in explanation of the estimation in which the foregoing incident would indicate Mr. O'Reilly to be held in this community, that while on Williams Creek Commissioner O'Reilly's administration was anything but popular; but now that it is contrasted with that of Commissioner Cox it is doubly so. The ruinous law expenses in which the poor miners were mulcted, through the encouragement given to litigation during the seasons of '63 and '64, will not soon be forgotten, to say nothing of the enormous toll such litigation paid the Commissioner by whom it was fostered.

Lest it might appear to those at a distance that the miners at the dinner acted with less courtesy, than could be desired in thus treating the toast, it may be proper to explain that the miners of Williams Creek are an honest, blunt, outspoken class of men, wholly incapable of playing the hypocrite; and when the toast was, unfortunately, proposed they could not in justice to their own manhood or to the general feeling on the creek do otherwise than they did. Had Mr. Trutch held his tongue and retained his seat not a harsh word would have been uttered by a miner. As it is the miners hope that the little "scene" will not be lost upon the Government.

You will see by the Sentinel that the great law suit which was to take \$50,000 from the coffers of the Ericsson Company, and a far greater sum from the moral status of its members, has proved a "fizzle." The rash and wholly unjustifiable attack made upon the moral character of the company by the Editor of that paper has, I am informed, told upon his own cash receipts—perhaps the only effectual way of punishing some people.

IN 2000 SHARES OF \$50 EACH, WITH POWER TO INCREASE.

300 A. SHARES have been issued as paid up shares to the promoters of the company, and the consideration paid them for their right to 600 acres of land, &c. 700 B. shares to be issued to subscribers, subject to payment of \$2 per share at the time of subscription, and of calls of \$1 per share, per month, until \$15 in all shall have been paid, when the subscribers shall be entitled to certificates of fully paid up stock. The remaining 1000 C. shares are reserved for issue at par when the Coal Mine is sufficiently explored and proved.

SECRETARY:  
WILLIAM CLARKSON, Esq.

This company is organized for the purpose of exploring and mining for Coal, and boring for Coal Oil. The character of the sandstone at Burrard Inlet, its identity with the coal-bearing sandstone of Bellingham Bay and Nanaimo, and the numerous croppings of Coal to be found at different places on the Inlet and on English Bay, make it nearly certain that Coal measures similar to those of Bellingham Bay and Nanaimo will be found at a reasonable depth.

The company have secured a reserve of 600 acres on English Bay, and the British Columbian Government has pledged its support in every reasonable way.

It is the intention of the company forthwith to explore the vicinity of English Bay for Coal, by putting down a bore—the strong probability being that in less than 90 days the ground will have been prospected and the company ready to sink a shaft and open a mine.

If the Coal croppings at English Bay or Burrard Inlet should be succeeded, as is usually the case, by thicker seams below, it must become an invaluable property. The position of the Bay and Inlet renders the harbors easy of access in all winds and seasons. The shore is bold, so that no long wharves or tramways would be needed, while the prices of Coal on the Pacific—averaging from two to three times the prices on the Atlantic—render the prosecution of Coal mining one of the most promising enterprises of the day.

500 B. shares are all that are at present offered for subscription. The monthly calls on these will be adequate to meet the current expenses of exploring; the subscribers to these shares incur a small risk, but they get a compensation—a \$50 share for the small sum of fifteen dollars.

Parties desirous of obtaining shares may be furnished with every information by applying to the Secretary, at the company's office, in New Westminster. jy27 to

**ALL CURES MADE EASY!!**  
**HOLLOWAY'S OINTMENT.**

**Bad Legs, Ulcerous Sores, Bad**  
**Breasts and Old Wounds.**

No description of wound, sore, or ulcer can resist the  
healing properties of this excellent Ointment. The  
worst cases readily assume a healthy appearance when-  
ever this medicament is applied; sound flesh springs  
up from the bottom of the wound, inflammation of the  
surrounding skin is arrested, and a complete and per-  
manent cure quickly follows the use of the Ointment.

**Piles, Fistulas and Internal Inflam-**  
**mation.**

These distressing and weakening diseases may with  
certainty be cured by the sufferer themselves, if they  
will use Holloway's Ointment, and closely attend to the  
printed instructions. It should be well rubbed upon  
the neighbouring parts, when all obnoxious matter will  
be removed. A poultice of bread and water may some-  
times be applied at bed time with advantage; and most  
scrupulous cleanliness must be observed. If those who  
read this paragraph will bring it under the notice of  
such of their acquaintances whom it may concern, they  
will render a service that will never be forgotten, as a  
cure is certain.

**Rheumatism, Gout & Neuralgia.**  
Nothing has the power of reducing inflammation and  
subduing pain in these complaints in the same degree  
as Holloway's cooling Ointment and purifying Pills.  
When used simultaneously they drive all inflammation  
and depravities from the system, subdue and remove  
all enlargement of the joints, and leave the sinews and  
muscles lax and uncontracted. A cure may always be  
effected, even under the worst circumstances, if the use  
of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm &**  
**other Skin Diseases.**

After fomentation with warm water, utmost relief and  
speediest cure can be readily obtained in all complaints  
affecting the skin and joints, by the simultaneous use of  
the Ointment and Pills. But it must be remembered  
that nearly all skin diseases indicate the depravity of  
the blood and derangement of the liver and stomach,  
consequently, in every case, time is required to purify  
the blood, which will be effected by a judicious use of  
the Pills. The general health will be readily improved,  
although the eruption may be driven out more freely  
than before, and which should not be promoted; per-  
severance is necessary.

**Sore Throats, Diphtheria, Quinsey,**  
**Mumps & all other Derangements**  
**of the Throat.**

On the appearance of any of these maladies the Oint-  
ment should be well rubbed at least three times a day  
upon the neck and upper part of the chest, so as to  
penetrate to the glands, as salt is forced into meat;  
this course will at once remove inflammation and altera-  
tion. The worst cases will yield to this treatment by  
following the printed directions.

**Scrofula or King's Evil and Swelling**  
**of the Glands.**

This class of cases may be cured by Holloway's puri-  
fying Pills and Ointment, as their double action of puri-  
fying the blood and strengthening the system renders  
them more suitable than any other remedy for all com-  
plaints of a scrofulous nature. As the blood is impure  
the liver, stomach and bowels, being much deranged,  
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following  
cases:—

Bad Legs, Contracted Hands, Scalds,  
Bad Breasts, Contracted Breasts, Sore Nipples,  
Bums, Stiff Joints, Sore Throats,  
Bunions, Elephantiasis, Skin Diseases,  
Bite of Mosquitoes, Fistulas, Scurvy,  
and Sand-Flies, Gout, Sore-heads,  
Coco-bay, Glandular Swel-  
Chigo-shot, lings, Tumors,  
Corns (soft), Lumbago, Ulcers,  
Cancers, Piles, Wounds,  
Chilblains, Rheumatism, Yaws.
